Suppressed: The Fight to Vote - Virtual Program

Wednesday, August 5, 2020 - 7:00pm

A screening of **Suppressed: The Fight to Vote**, a 35 minute documentary by Robert Greenwald and [Brave New Films](#), about the 2018 election in Georgia, will be followed by a discussion facilitated by Caroline Cole of the Andover/North Andover League of Women Voters.

This program will be held over Zoom. Registration is required. The link will be sent to registered participants the day of the event.

The new documentary by Robert Greenwald (Director of *Outfoxed*, *Walmart: The High Cost of Low Price*, and *Making A Killing: Guns, Greed, & the NRA*) weaves together personal stories from voters across the state of Georgia to paint an undeniable picture of voter suppression in the 2018 midterm election where Stacey Abrams fought to become the first Black female governor in the U.S. The issues Georgians faced included polling place

closures, voter purges, missing absentee ballots, extreme wait times and a host of voter ID issues – all of which disproportionately prevented many students and people of color from casting their ballots. The film features experts, poll watchers and everyday Georgians speaking to the reality of voter suppression and the threat it poses in 2020. In a race that was ultimately decided by 54,723 votes, the film exposes that the basic constitutional right to vote continues to be under siege in America.

This program is a collaboration of Memorial Hall Library, Courageous Conversations, and the League of Women Voters of Andover/North Andover.
